

INTRODUCTION

International Consulting Services, Inc is offering its clients a unique service to manage all aspects of a buildings exterior enclosure, from initial design and engineering to installation and completion.

Our management and staff gained its extensive expertise in the Curtain Wall, Cladding and Waterproofing Industry over the past 20 years through hands on involvement in the completion of many domestic and international landmark status projects.

ICS knows what it takes to build a project from the ground up while facing commercial, technical and logistic challenges.

ICS offers a wide range of services for Architects, Contractors, Owners and Developers, proudly served with respect and integrity, covering all aspects of the Construction Process and beyond.

With offices around the globe, ICS is in a position to service its clients anytime, anyplace. Large projects are often managed by construction teams consisting of domestic and international companies. Our international group of companies can support, for example, both the overseas Architect as well as the domestic Construction Manager.

Our ability to tailor our services, any time, any place, to the specific needs of our clients and the project is what sets ICS apart from the traditional Consulting Firms.
